

Co-Diovan 80/12.5mg, 160/12.5mg, 160/25mg film coated tablets הנדון:
קו-דיובאן 80/12.5 מ"ג, 160/12.5 מ"ג, 160/25 מ"ג טבליות מצופות

התכשירים שבנדון רשומים בישראל להתוויות הבאות:

Co-Diovan is indicated for the treatment of hypertension in patients in whom combination therapy is appropriate.

המרכיבים הפעילים:

Co-Diovan 80/12.5mg: Valsartan 80mg, Hydrochlorothiazide 12.5mg
Co-Diovan 160/12.5mg: Valsartan 160mg, Hydrochlorothiazide 12.5mg
Co-Diovan 160/25mg: Valsartan 160mg, Hydrochlorothiazide 25mg

בנובמבר 2013 עודכן העלון לרופא של התכשירים כדלקמן (קו תחתית – תוספת טקסט, קו חוצה – מחיקת טקסט):

8 Interactions

Valsartan-hydrochlorothiazide

The following drug interactions may occur due to both components (valsartan and/or hydrochlorothiazide) of Co-Diovan:

Lithium: Reversible increases in serum lithium concentrations and toxicity have been reported during concomitant administration ~~urrent use of~~ lithium with ACE inhibitors, angiotensin II receptor antagonists or and thiazides. Since renal clearance of lithium is reduced by thiazides, the risk of lithium toxicity may presumably be increased further with Co-Diovan. There is no experience with concomitant use of valsartan and lithium. Therefore, careful monitoring of serum lithium concentrations is recommended during concurrent concomitant use.

Valsartan

The following potential drug interactions may occur due to the valsartan component of Co-Diovan:

.....

Hydrochlorothiazide

The following potential drug interactions may occur due to the thiazide component of Co-Diovan:

~~Lithium: Reversible increases in serum lithium concentrations and toxicity have been reported during concurrent use of ACE inhibitors and thiazides. There is no experience with concomitant use of valsartan and lithium. Therefore, monitoring of serum lithium concentrations is recommended during concurrent use.~~

.....

9 Women of child-bearing potential (WOCBP), pregnancy, breast-feeding and fertility ~~(WOCPB)~~
